5. PARAGRAPH ABOUT THE PROCEEDINGS :

The Department of Commerce – Computer Applications conducted an offline certificate course in Tally in collaboration with NSIC for BCom (Computer Applications) II & III years and MCom students for the duration of 2 weeks starting on 03.02.2022 to 17.02.2022, Timings 3:00 PM to 5:00 PM.

Total 54 students got registered for pursuing this course. All the students attended the classes till end of the course. The resource person taught very well the concepts. The Training Classes were held in the computer lab, where whatever the concept the resource person explained through PPT & sharing Tally accounting software screen, the students immediately practiced on computer and all their doubts were immediately addressed by him. After the completion of the course an exam was conducted by NSIC, and the grades reflected on the certificate which was issued to them immediately. Most of the students showed outstanding performance and secured A1 grade.

TARGET AUDIENCE	MECS and MPCS I,II,III Year students

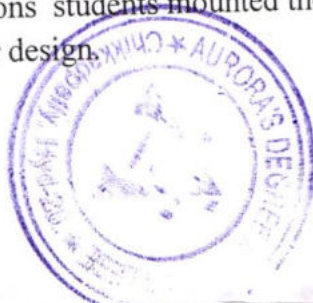

Objective: The workshop was aimed to provide knowledge about Complete PCB Designing using simulation tool to test electronics & electrical circuit in software environment and also its Fabrication, PCB design software & to make physical PCB at home so that any student can make project on his own

Introduction:

Printed Circuit Boards are essential part of a electronic connections to generate a mechanical support as well. Conductive tracks, pads and other features etched from copper sheets laminated onto a non-conductive substrate to connect capacitors, resistors or active devices which are generally soldered on the Printed Circuit Board. As bread board cannot be used as there was substantially increased number of components and for smaller packaging sizes of Integrated circuits that's makes PCB more essential. It is more of an art then just science with lots of scope for designer.

Methodology:

Department of Physics and Electronics has organized a Certificate course on "PCB Making Process and testing". A detailed description on the types of PCB's were explained during first session followed up by practical session to design a basic circuit of rectifier using PADS PCB design Software. In the remaining sessions students mounted there circuit on PCB board and designed layout for PCB and tested their design.

OUTCOME:

- Students learned designing electronic circuits using PADS PCB design software.
- Students learned how to implement PCB Layout from Electronic Circuit design .

FACULTY INCHARGE	Kumari Shalini
DEPARTMENT	COMPUTER SCIENCE
DATE	12-3-2019 to 26-3-2019
VENUE	Main Block Chikkadapally
TARGET AUDIENCE	UG Students

OBJECTIVE: The objective is to make students understand fundamentals of Hardware and various troubles shooting mechanism with CPU working with the Computers. To make student to resolve with hardware issues encounter while working on Computers applications in the field of Information technology.

BRIEF ABOUT THE EVENT:

The event was conducted for the students of UG on Hardware & Computer Networks. Event started at 10 am by formal introductory speech.

He has explained the Fundamentals of Hardware through Power-point presentation by exhibiting various Parts of CPU.

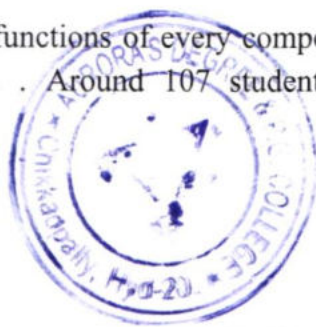

He showed experimentally working mechanism of CPU hardware components with Computer and also explained various troubles shooting mechanism with CPU working with the Computers.

Giving the students several sample CPUs and hardware components allowed them to participate in both operating the computers and installing the hardware components in the CPU.

Task was given to students on assembling and disassembling, formatting the disk, partitioning the disk...

OUTCOME:

Students learned about the functions of every component of a computer. Students received certificates of participation . Around 107 students have participated in the event and certificates were given.

The workshop was attended by the BBA Final year students of the college. The workshop covered all the topics in Excel mentioning the in depth details of Arithmetical & Logical Operators ,Looping statements and some functions . Resource Person have interacted with students in an effective way by clearing their doubts and by giving and making them practice with some of the Examples. First the training programme has been started with basics of MS EXCEL like basic arithmetic operators (sum,average.....) and used some of the looping operators (IF,IF AND.....) then explained about VLOOKUP ,HLOOKUP,etc . And had a brief explanation about the Statistical PIVOT TABLE ,PIVOT CHART,DATA VALIDATION, DATE,TIME etc.This programme aimed at ensuring that each participant should go with enriched knowledge of statistical tools used in Research Analysis. The programme ended with the question answer session where students were able to discuss their queries with the trainers.

Objective:

- To empower the students with real time applications.
- To gain knowledge in latest technology in the field of Ethical Hacking.
- To know how to find and exploit vulnerabilities and weaknesses in various systems.

Outcome :

- The learners will be well equipped with the latest technology of hacking and how to secure the systems.
- Students will learn about the techniques to hack the device/sites professionally.

Brief Report:

The Department of Computer Science has conducted an Add-on course on "ETHICAL HACKING" for the students of UG I,II and III year in collaboration with AENEX. The duration of the course was from 1st April to 4th April,2019.

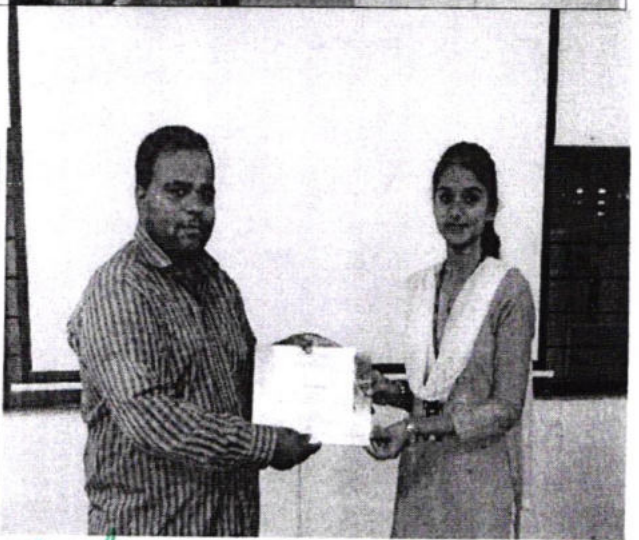

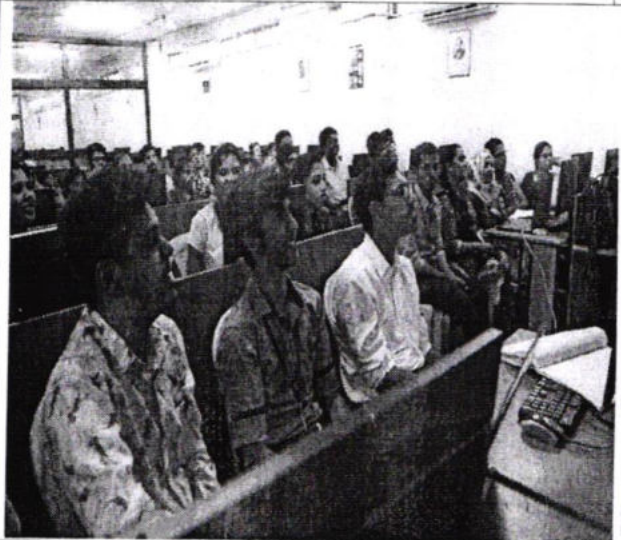

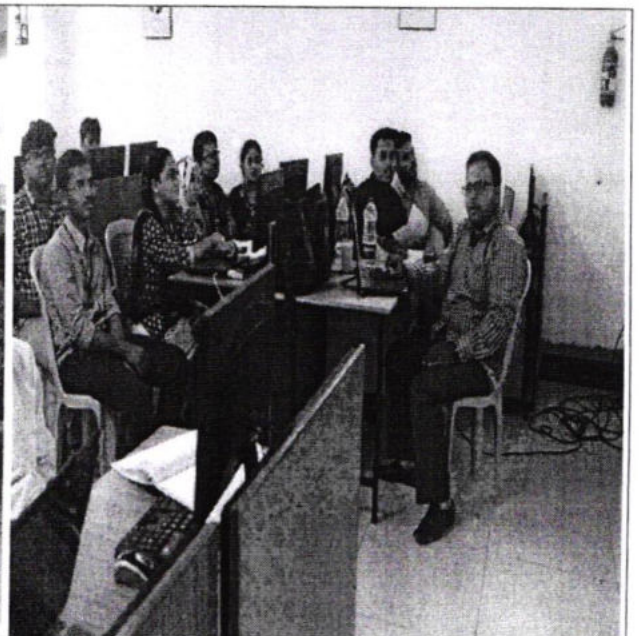

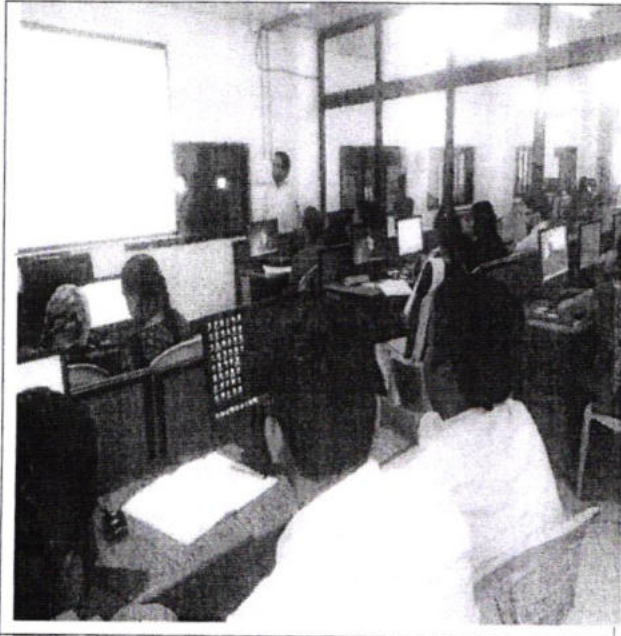

The following are the few topics covered in the course:

- Introduction of hacking, Types of hackers
- Difference between ethical hacking and hacking
- Terms of hacking
- Life cycle of hacking
- Introduction to Ip address(internet protocol)
- Basic commands of windows command prompt
- Information gathering
- Password security
- Google hacking(Google dorks)
- Types of protocol
- Windows XP Hacking
- Windows 7/8/10 Hacking
- Facebook Hacking, Wi-Fi Hacking
- Steganography, Cryptography
- Man in the middle attack, Denial of service(dos)attacks
- SQL injection
- Making a fake call, Sending a Fake mail
- Pen drive booting, Building/creating a Malware

The students have expressed their views at the end of the session and shared their experiences.

NAME OF THE EVENT	Add On course
TYPE OR TITLE OF EVENT	Add Course on "Vedic Mathematics" in collaboration with Shiksha Sanskriti Utthan Nyas
FACULTY INCHARGE	Ms Prathibha G and Ms Devika M
DEPARTMENT	Department of Mathematics
DATE	23 -09-2020 TO 27-10-2020
VENUE	Online
TARGET AUDIENCE	BSc Physical Science Students

OBJECTIVE:

- To make students conceptually strong in Mathematics
- To gain hands on experience and acquire knowledge to do calculations rapidly

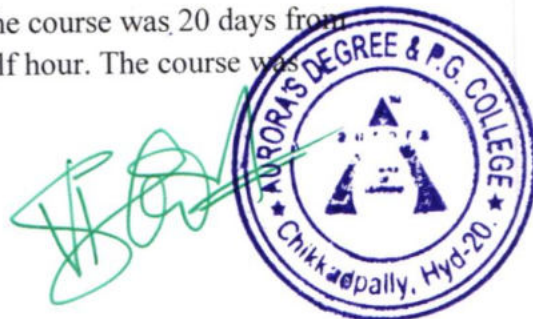

BRIEF ABOUT THE EVENT:

Department of Mathematics has conducted an online Add-on course on "Vedic Mathematics" for the students of B.Sc Physical Science Students in collaboration with **Shiksha Sanskriti Utthan Nyas**. The duration of the course was 20 days from 23th September, 2020 to 27th October, 2020 per day one and half hour. The course was conducted online classes.

The following topics were covered in the course:

Unit – I

1. Multiplication by "Nikhilam Sutra"
2. Multiplication by "Antyayoh dasake api"

3. Multiplication by “Urdhwa - tiryaybhyam”
4. Sum and product of three 2-2-2 digit sets.
5. Squaring

Unit – II

1. Square root by vilokanam – 5 digit numbers.
2. Square root of six digit number by “Dwandwayoga” 6 digits and above.
3. Cube by deviation method using vilokanam
4. Cube root by logical method (Tarkika Paddhati)
5. 5th root by logical method.

Unit – III

1. One line algebraic multiplication quadratic expressions using “URdhwa-tiryagbhyam”
2. Solutions of Simultaneous equations using “Anurup sunyamanyat”

$$2x + 3y = 6 \quad 3x + 4y = 9 \quad 3x + 4y + 8z = 16$$

$$2x + 4y = 8 \quad 4x + 3y = 12 \quad 4x - 5y + 16z = 32$$
3. Solution of Quadratic equation
4. Factorization by “Vilokanam “ $5x^2 - 11x + 6$ “Aadya maadyena Antyamantyena “
5. Memory development up to 50 digit numbers.

Unit – IV for Competitive exams

1. Multiplication by Urdhwa – tiryaybhyam” 5 * 5 digits
2. Squaring by “Yavdunam “ and by “Dwandwayoga”
3. Square root by logical method 6 digit numbers
4. Cube root up to 9 digit numbers
5. 5th root of 10 and 15 digit numbers
6. Cubing by logical methods
7. Solution of simultaneous equations up to 3 variables by “Sumyamanyat” and “Anurupaye sunyamanyat”.
8. Pythagorean triples and “Bodhayana Sutras”

OUTCOME:

- Students learnt various Vedic mathematics techniques to solve various mathematical problems in short time

1. PROGRAM SCHEDULE:

Classes were conducted from 23-09-2020 to 27-10-2020 at 3:00 pm to 05:00pm

- Multiplication by sutrayor dasakrya: 147×143
- Find the Square root of 11025 and 33124
- Find the cube root of 56653 and 836056
- Solve $(4x + 2y + z)(x - 3y - 2z)$ by urdhvak tiraghghyam sutra
- Factorize $5x^3 - 11x + 6$ by aadyamadyena antyamantayena sutra 1st by the 1st & last by the last
- $42x - 27y = 16$, $27x - 43y = -16$ find X and Y
- Find 32^2 by anurupena sutra

SECTION - B

Answer all questions each question carry six marks 4 × 6 = 24 m

- i) 54638×998 nikhilam ii) 273^2 by duplex method
- i) 3451×1231 by vertically and crosswise sutra
 ii) if one side of the right angle triangle is 6 then find other two sides ?

5. ABOUT THE PROCEEDINGS

English Strokes is an app designed to let learners have fun and learn along the way by British Council. The course helps students enhance their vocabulary, grammar and language skills. This course includes a basic level along with three levels of difficulties. With basic level consisting of twenty units and level one, two and three consisting of ten units each, this course is scheduled for six months. This course includes continuous assessment, measurement of progress and leads to a course completion certificate.

Students were given an orientation about the whole course on the 24th of January, 2021. After the orientation, students received a Google Form where they were asked to express their level of interest in the course. Based on their response, the Department of English proceeded with the course. The students were made aware of the time frames within which each level of the course

OBJECTIVE:

- The objective of this course is to enhance students with the knowledge of Sanskrit as a living language, by introducing them to its basic grammatical structures which enables them in understanding simple texts as well as allows them to use in day to day life.
- It throws light in understanding and appreciating the beauty of the different aspects of Sanskrit language through LSRW, a mode to understand and enjoy its rich content with interest and enthusiasm in the further aspects of learning.

BRIEF ABOUT THE EVENT:

The course of online Spoken Sanskrit classes titled "गीर्वाणभाषांपठामः" organized by Aurora's Degree & PG College in collaboration with Maharshi Bharadwaj Veda Vidya Samiti, Prayagraj (U.P). Total 15 students got registered and attended the online classes daily till the end of the course. After the completion of the course an exam is conducted and issuing them certificates based on their performance. All of the students wrote the exam and got A - grade with outstanding marks.

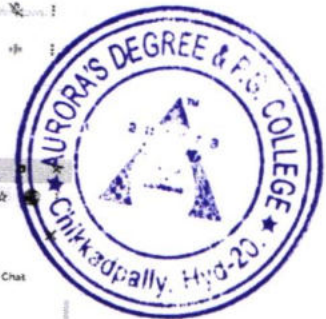

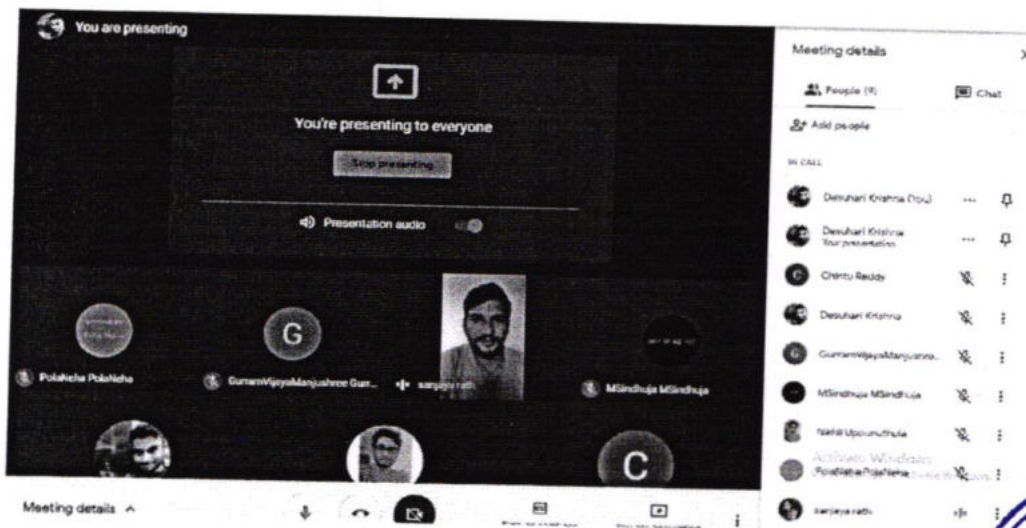

OUTCOME:

“Sanskrit is one of the oldest languages of the world. There is a need to sensitize the new age generation towards the uniqueness and significance of Sanskrit language. Such initiatives go a long way in sensitizing the young generation towards preserving the Indian culture and knowledge systems.

The Purpose of conducting add-on-course is to help participants learn and speak and understand elementary Sanskrit, which was much achieved.

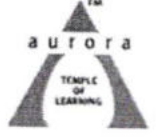

Students learnt and knew about Sanskrit importance and accurate, correct and appropriate pronunciation in recitation of Subhashitas (verses)/Slokas and other texts too.

PARAGRAPH ABOUT THE PROCEEDINGS:

The Department of Languages conducted an online certificate course in "गीर्वाणभाषांपठामः" in collaboration with Maharshi Baradwaj Veda Vidya Samiti, Prayagraj (U.P) for BBA /B.COM/B.Sc. The entire first, second & third Year students attended this Course for duration of 15 Days, starting from 28.09.2020 to 16.10.2020, Timings 2:00 PM to 4:00 PM.

The knowledge of Sanskrit is very helpful for anyone who is interested in delving into the original texts relating to various subjects from the Indian traditional knowledge systems. This language, however, is often presented as a difficult language to learn for many and moreover as a classical

language of the past that is of no special relevance in the contemporary world. Those who have been exposed to it in school often regard it as nothing more than a scoring subject and have little appreciation for the various dimensions of the language.

The first part of this course titled 'Introduction to Basic Spoken Sanskrit' that comprised of General words, Opposites, Time, verb, and prepositions.

The Second part of this course was shabdhas, Avyayaas, sanskrit numerical 1-100, Sentence formation and sentence linking and translation of story. These aspects generated sufficient interest in the students and were out of the myth about the difficulty mentioned about the language. Many students have requested for follow up classes.

The objective of this course is to give Students a more elaborate foundation of Sanskrit as a living language. It will introduce them to further grammatical structures that will facilitate their understanding of simple texts as well as allow them to use it in daily life. It also seeks to provide them with a deep appreciation of the beauty of the different aspects of this language from its sounds to its rich content so that they feel enthusiastic enough to delve further into it.

3. PARAGRAPH ABOUT THE PROCEEDINGS (TILL THE END OF THE EVENT)

It is envisioned to bring updated industry relevant computer education for B.Com Generals & Honors students as they do not have any computer paper in their curriculum. The Add On Course started on 31st January, 2022 at 10:00 AM in Microsoft Team platform by the Resource Person V. Kavya, Assistant Professor Department of Computer science. In the beginning, there was an interaction between the speaker and the students to know their level of knowledge in computer basics. Then the session proceeded with definition, components and its applications. Further the session was conducted for a total 15 days where day wise different concepts were covered.

[Handwritten signature in green ink]

The following is the list of concepts covered in the Add-On course

1. Input devices
2. Output devices
3. Types of Memories
4. MS-Word & its Features
5. MS-Excel & its Features
6. MS-Powerpoint & its Features
7. Types of Networks
8. Internet

At the end of the course an assessment test was conducted & Certificates were awarded to the student based on their performance,

EVENT / ACTIVITY SHORT REPORT

NAME OF THE EVENT / ACTIVITY	Add on Course
TYPE OR TITLE OF EVENT / ACTIVITY	Advanced Excel
FACULTY INCHARGE	Mrs. Veena Kapoor
DEPARTMENT/CELL/COMMITTEE/CLUB	Commerce Department
DATE	01-02-2022 to 17-02-2022
RESOURCE PERSON	Hari prasada Rao J (Associate Professor & Vice Principal Department Of Computer Science)
VENUE	Aurora's Degree and PG College
TARGET AUDIENCE	B.Com General and Honors III year

OBJECTIVE:

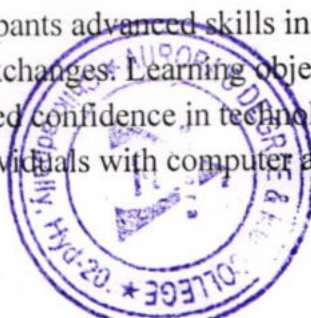

To enable the participants to master Excel skills to build future computer knowledge and expertise, also to bridge the gap in the curriculum.

BRIEF ABOUT THE EVENT:

The Add-on course started on 31-01-2022. Initially the session started with the knowledge of computers and its components. Later the session proceeded with Basic Excel followed by Advanced Excel. Participants also learnt to use different types of technology in everyday settings, including installing software, managing updates and performing backups on desktop & laptops

OUTCOME:

This course was introduced to teach participants advanced skills in Excel usage, often required in today's workplace and social exchanges. Learning objectives for these classes state the desired outcomes, such as improved confidence in technology use and increased awareness of opportunities afforded to individuals with computer application skills.

3. PARAGRAPH ABOUT THE PROCEEDINGS (TILL THE END OF THE EVENT)

Medical coding is the transformation of healthcare diagnosis, procedures, medical services, and equipment into universal medical alphanumeric codes. The diagnoses and procedure codes are taken from medical record documentation, such as transcription of physician's notes, laboratory and radiologic results. Medical coding converts the medical terminology into a coding language. Every disease and procedure will be designated a code and will be addressed by the specific code.

This course was conducted online through Microsoft Teams platform for about 15 days. All the students have actively involved in this session. Day to day oral assessments were conducted in the online itself. Initially all the systems of the human body were taught to the students and later on proceeded with the coding language and their new terminologies. A final assessment was also conducted to all the students' in order to test their level of understanding and utilization of the course.

Detailed Report of the Event- Add On Course

Add-on Course

"Build Self Esteem & turn Stress to Smile"

Day1:- TOPIC 1 -TEN BENEFITS OF MASTERING OUR MIND

Date: - 17/4/2023

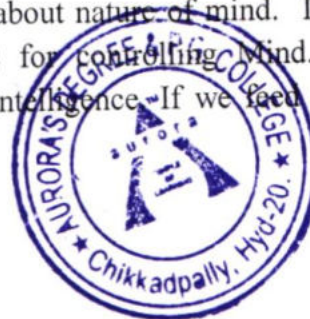

Guest/Speaker details: 1. Sri. Sarasiromani Das
Iskcon (International society of Krishna Constitution),
Hyderabad.

Minutes:- Class started with the introduction of the course. Students also learned 10 benefits of mastering mind and art of harnessing mind power. The mind may be likened to a garden, which can either be intelligently cultivated or allowed to run wild. Gardeners cultivate their plot, growing fruits, flowers, and vegetables in it. At the same time, they also ensure that it remains free from weeds. Similarly, we must cultivate our own mind with rich and noble thoughts, while weeding out the negative and debilitating thoughts. If we allow resentful, hateful, blaming, unforgiving, critical, and condemning thoughts to reside in our mind, they will have a debilitating effect on our personality. We can never get a fair amount of constructive action out of the mind until we have learned to control it and keep it from becoming stimulated by anger, hatred, dislike, etc. These are the weeds that choke out the manifestation of divine grace within our hearts.

Day2:-TOPIC 2 - DISCOVER THE ULTIMATE GENIUS

Date:- 18/4/2023

In this class students learned about the concept of soul - soul is covered by the gross body and subtle body. They got to know the differences between gross and subtle body. They also learned how body undergoes six changes and, also about nature of mind. In connection to nature of mind, they learned GIGO PRINCIPLE for controlling mind. Mind can be controlled by GIGO PRINCIPLE and with strong intelligence. If we had our intelligence with good thoughts than one can control their mind

Day3:- TOPIC SELF ESTEEM - RISE ABOVE INFERIORITY COMPLEX

Date:- 19/4/2023

Minutes:- Guest Speaker spoke about the practical solutions for overcoming inferiority complex. In the last class they learned the problems of inferiority Complex, now in this class, they learned solutions for that problem. They learned five practical solutions -

- 1, Aspire to be good (do your best) you will end up becoming great
2. Big and small have potential to stand tall
3. Compare yourself with yourself only.
4. Bring out the best in you and be happy
5. Pray for empowerment

The bhagavad geeta provides the best way to control not only anger but all emotions that wreck a havoc in us. Emotions that hijack our logical reasoning and make us do things we would come to regret later. This is what Bhagavad Gita exactly teaches us, "Perform your duties without thinking too much about the results" and this brings detachment

Day 4:- KEEPING COOL UNDER PRESURE

Date:- 20/4/2023

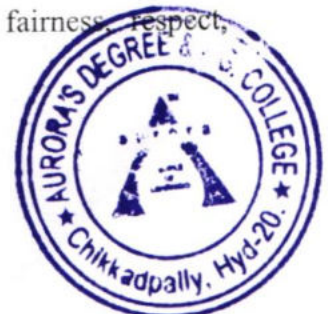

Minutes:- Guest Speaker spoke about the practical solutions for overcoming pressure. They learned five practical solutions -

1. Practice Healthy Habits
2. Organize your priorities
3. Focus on the present
4. Reflect on the positives
5. More optimism

Day 5:- WINNING WITH INTEGRITY

Date:- 21/4/2023

Minutes:- Guest Speaker spoke that Integrity is the key to freedom. It's only your own truth that can set you free. It is better to love your own destiny imperfectly than to live an imitation of some body else's life with perfection. Guest Speaker spoke that integrity is truthfulness, with all people. In every situation, truthfulness is the foundation of the trust necessary for ultimate success. Important points for this session are honesty, trust, fairness, respect, responsibility, courage and decency.

Day6:- DO YOUR BEST AND LEAVE THE REST

Date:- 24/4/2023

Minutes:- In this class students learned about how one should do their best and leave the rest and, how one should hope for the best but prepare for the worst. Lastly, they learned how Krishna is the cause of all causes and they also learned the importance of mantra meditation.

Day 7:- SELF AWARENESS - ART OF KNOWING YOUR SELF

Date: - 25/4/2023

Minutes: - The guest speaker has started his lecture by introducing different languages. His whole focus is on mother-tongue and how important mother-tongue is for learning different languages. He added that reading books and news papers of different languages helps to learn other languages perfectly. He has also mentioned the significance of learning the scripts of other languages. Guest Speaker also explained about knowing oneself is the beginning of all wisdom - identifying your strengths & weaknesses, your behavior and thought patterns. In addition he covered other points also like - better communication , ability to manage and regulate our emotions, better decision making skills, improve relationship etc....

Day 8:- ART OF MIND MANAGEMENT

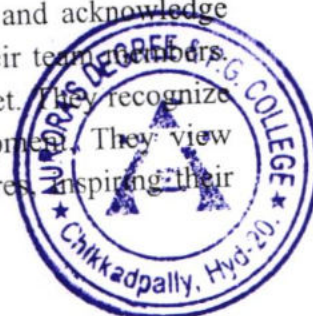

Date: - 26/4/2023

Minutes:- The guest speaker taught the students – ‘Bhagavad Gita is one of the essential Indian ancient scriptures like Vedas, Purana's and Upanishads’. It guides us by showing various spiritual paths through which we can gain self-knowledge as well as inner-peace. Many of our legendary leaders like Mahatma Gandhi, Dr. Radhakrishnan, Lokmanya Tilak and many more were influenced by the philosophy of ‘Bhagavad Gita’. This study showcases that, how ‘Gita’ influences the life of modern human society especially ‘Y’ and ‘Z’ generation. It also tried to analyze and highlight that, how Bhagavad Gita supports and develops certain management vision and thoughts, which has created a benchmark in the modern world as a key source for success to any organization or an individual. Keywords: Bhagavad Gita, Management Thoughts, Organization, Inner-peace, Self-Knowledge.

Day 9:-SELF MANAGEMENT

Date:- 27/4/2023

Minutes:- The guest speaker taught students that self-management enables managers to leverage their strengths effectively. By understanding their capabilities, managers can assign tasks and responsibilities that align with their expertise, resulting in higher productivity and job satisfaction. Moreover, self-awareness allows managers to recognize and acknowledge their limitations, leading to better delegation and the empowerment of their team members. By cultivating self-awareness, managers can also develop a growth mindset. They recognize that they are not perfect and embrace continuous learning and development. They view setbacks and challenges as opportunities for growth rather than as failures. Inspiring their team members to adopt a similar mind-set.

Day 10:- HEALTHY HABITS - HAPPY LIFE

Date:- 28/4/2023

Minutes:- The guest speaker taught students that Bhagavad Gita is one of the best known religious classic and a highly regarded philosophical treatise. At the same time, it can also be called a perfect guide for healthy and happy living; and a panacea for all lifestyle disorders. Through a dialogue between Arjuna and Lord Krishna, it has offered a great insight into different aspects of human life. It has also been explained in great detail as to how can one have a healthy body and a happy mind.

Krishna begins his teachings with shloka 2.11 wherein he has assured mankind that there was no cause for grief. The wise grieve neither for the living nor for the dead. It implies that any sorrow was uncalled for. Contentment was the natural state of one's being. Leading a healthy and happy life was everyone's right.

Gita has also recommended pranayama and meditation for blissful living. Regulation of the breath and concentration of the mind brings cheerfulness. One becomes joyful from within.

Apart from the body and the mind, Gita has thrown ample light on the metaphysical concept of jeevatman, the self. When one understands that his true nature is the self, which is the imperishable and eternal reality behind his physical existence, then he transcends all sufferings associated with the body and the mind. He overcomes the fear of old age and death. He can then appreciate the real meaning and purpose of life.

With such a strong body, serene mind and pure soul, one can effectively cope up with any stressful situation. No lifestyle disorder or psychosomatic disease can impact him for long. He can, thus, lead a healthy and happy life. Spiritual lifestyle is a blissful lifestyle.

Day 11:- MASTERING TIME MANAGEMENT

Date :- 29/4/2023

Topic:- Minutes:- The guest speaker taught students that Management of time is a systematic way of doing all activities in any field of human effort. The western management thought of prosperity to some for some time has absolutely failed in its aim to ensure betterment of individual life and social well-fare. The despondent position of Arjuna in the first chapter of the Gita is typical for this human situation which may come in the life of all men of action some time or other. Lord Krishna in the Gita advices how to manage time for better management of our lives.

Day 12:-BUILDING STRONG LEADERS

Date: 1-5--23, Monday

Minutes:- The guest speaker taught students that - one of the issues that Lord Krishna emphasizes to Arjuna is the issue of leadership. In several chapters in the Gita there are interesting references to the quality of leadership. If we carefully analyze them three interesting ideas emerge. These include: • Strong need to lead by example • Importance of

developing a high degree of equanimity • Understanding the principle of mutual dependence
Leading by example, leaders derive their credibility, respect and power from their unwavering commitment to walking the talk. This is because, if the leaders say something and do something else, the followers will not take the leader very seriously. Rather, they will do a similar thing as their leader and nothing else

Day13:- Turn stress into smile

Date:- 3-5--23, Wednesday

Minutes:-This was the interesting and most important class. In this class students learned 12 practical tips to convert stress into smile. For this they learned the 'Escape Stress' formula that is: - Expectation ,Success definition, Comparison, Appreciate God's Grace, People's comment, Endure unchangeable, Some points to ponder upon are - See the sunny side, Train journey, Right thinking , Ego - give up, Stressing to impress useless, Sublimate desires, not suppress or express.

Day14:- Conclusion of the Event

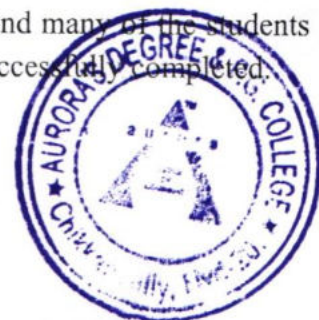

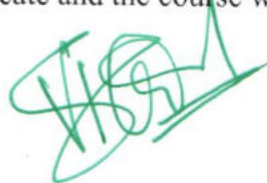

Date:- 4-5-23, Thursday

Conclusion of the event: This add-on course had knowledgeable guests who imparted their valuable knowledge and guidance to the students who participated enthusiastically and were keen in knowing about their future goals and ways to achieve them through higher education. The guests have answered and clarified all questions asked by the students. This course enlightened and created awareness among the students to know their goals and attain the same in their future walk of life, pursuing their careers. Course ended on 4-5-23. Students felt very happy,

Day15:- Certification Exam

Date:- 12-5-23

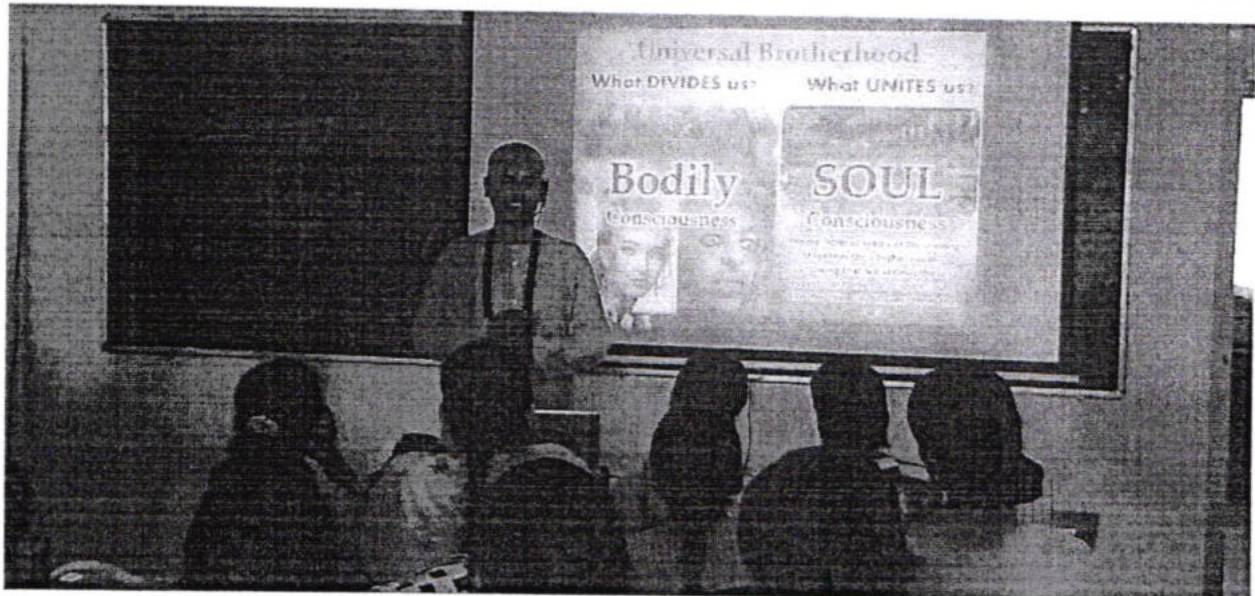

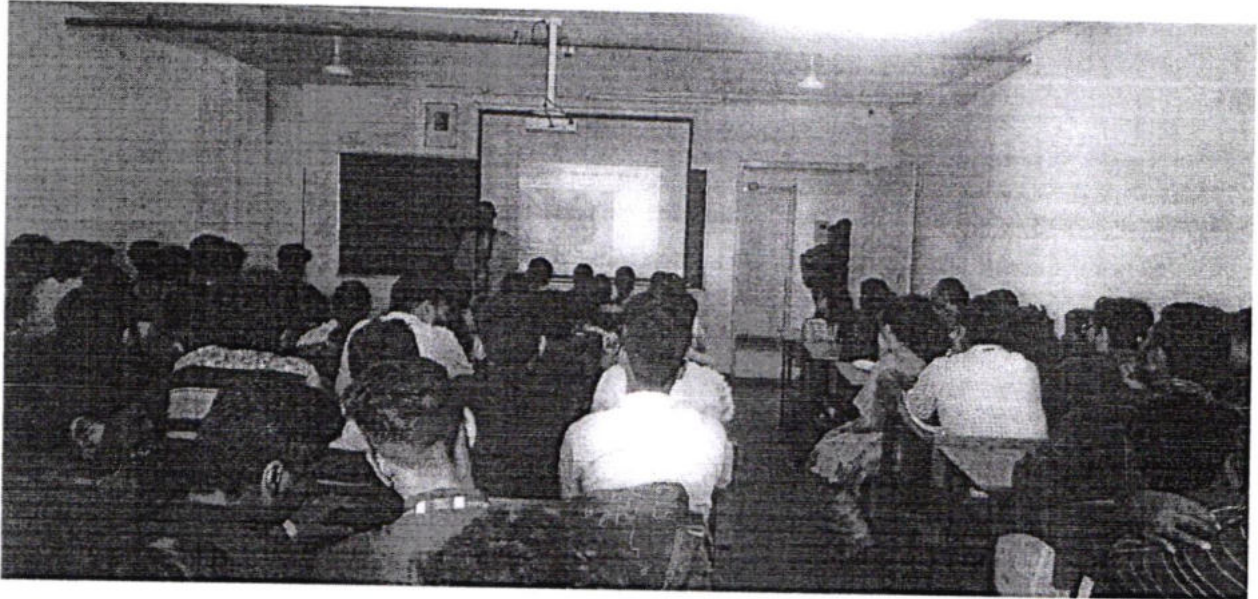

At the end of the course, on 12th May 2023, exam was conducted and many of the students have written this exam. Students got certificate and the course was successfully completed.

LETTER OF EXPERIENCE

To whom it may concern,

This Letter of Experience is for **Abhishek Dey** who was a part of IIDE's Global Virtual Internship Programme. Abhishek has successfully completed a 1-month internship under the leadership of his manager, Siddhi Amin.

During the tenure, his performance was more than satisfactory and he showcased a degree of professionalism.

The internship included training and tasks related to Social Media Marketing, SEO, Content Writing and Google Sheet Management. This not only gave him a practical exposure to various essentials of Digital Marketing but also enabled him to provide Integrated Marketing solutions.

We sincerely believe Abhishek will bring his optimism, passion, and creativity to any task in any Digital setup he joins.

If you have any questions about our recommendation of Abhishek, please do not hesitate to contact IIDE or me.

Sincerely,

Karan S

5. PARAGRAPH ABOUT THE PROCEEDINGS (TILL THE END OF THE EVENT) The event started on 2nd November, 2022 at 12:30 PM. There was an interaction between the speaker (Naveen) and the students to know their understanding about this particular add-on course. Then the session proceeded with a basic overview of business analysis and then in the course students learned the basic knowledge, soft skills and technology tools required to be a good business analyst. The session was conducted for a total 45 days where day wise different concepts/skills were covered to the students.

Gave a basic understanding of Business Analysis which is "the process of understanding business change needs, assessing the impact of those changes, capturing, analysing and documenting requirements and then supporting the communication and delivery of those requirements with relevant parties."

Further elaborated on the roles & responsibilities of a Business Analyst who is likely to be the key change facilitators within an organisation. They must deliver effective solutions which provide tangible business benefits often within short timescales. You must be a great communicator (both written and verbal), have business acumen and be willing to tackle complex problems head-on while dealing with the challenges of short timescales and demanding business stakeholders.

Explained the 5 pillars i.e., Pillar 1 - The Passion, Pillar 2 - Adaptive Social Skills, Pillar 3 - Recursive Systems Thinking, Pillar 4 - Going the Extra Mile, Pillar 5 - Peak Productivity. Moreover, introduced students to technology tools for designing/modeling using UML, entering/maintaining data both in spreadsheets (MS Excel) and in databases (MS Access).

The following is the list of concepts covered in the Add-On course:

1. Business Analyst(BA) overview
 2. Roles & Responsibilities of a BA
 3. Overview of BA tasks
 4. 5 Pillars of a BA Overview
 5. Pillar 1: Passion

7. EVENT PHOTOS:

The screenshot shows a Google Colab notebook interface. The title bar reads "Chapter 1 - Reading from a CSV.ipynb". The code editor contains the following text:

```
1) Upload the data to your google drive "mount" the drive
2) Mount your google drive to colab -> Accessing drive from google colab
```

```
1 from google.colab import drive
2 drive.mount('/content/drive')

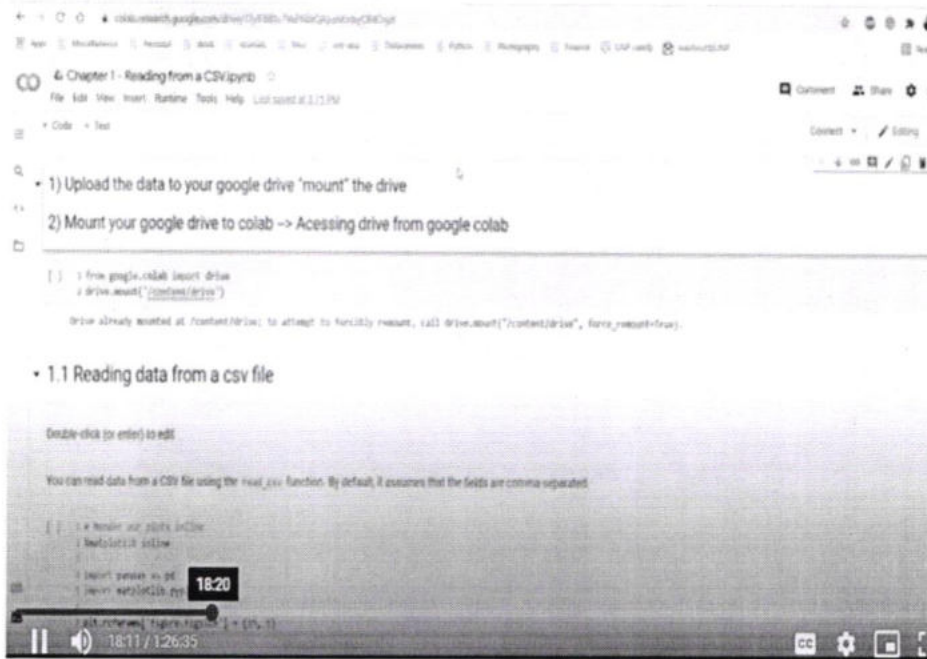

Drive already mounted at /content/drive; to attempt to forcibly remount, call drive.mount("/content/drive", force_remount=True).
```

Below the code, there is a section titled "1.1 Reading data from a csv file". The text says "Double-click (or enter) to edit" and "You can read data from a CSV file using the read_csv function. By default, it assumes that the fields are comma-separated." There is also a small code snippet:

```
1 # Import our plots inline
2 %matplotlib inline
3 import pandas as pd
4 import matplotlib.pyplot as plt
```

The bottom of the screenshot shows a video player interface with a timestamp of 18:11 / 1:26:35 and a red "18:20" overlay. A green signature is written over the bottom right of the screenshot.

Hello Veena Ma'am,

It was really to meet you in person at the College last week and discuss industry-oriented courses for students. Please find attached the information for the 'Business Intelligence with Power BI' course. It is a coursework-cum-project work program specially curated for students to develop skills and expertise toward a career in Business Analytics. The course is suitable for undergrad students (pre-final & final year) and PG students.

Students will learn to confidently use Power BI to aggregate, visualize, and analyze data to support business decision-making and communicate effectively. It will provide them the impetus to confidently apply for professional and academic opportunities in the field of Data Analytics. Students will work on a Capstone Project, work through the different stages of a BI project, and finally present it. The projects will be simulated how a Business Intelligence project is executed in corporate organizations for clients across various industries.

Students will receive a certificate upon successfully completing their project which they can showcase on their resume and on LinkedIn.
