

MA - Psychology

Master of Arts or MA Psychology is a postgraduate course in psychology which studies human behavior and human psychology. It is concerned with a thorough and comprehensive study of psychology as a discipline. It covers areas like motivation and nature of mind, crisis management, mental processes, reactions, conflict resolution, group think, and feelings. This course aims to train the students to identify emotional, behavioral and psychological issues as well as specific disorders. The students are taught to come up with a specific treatment plan for each patient.
