

Report from IQAC on Enrollment in Specific Courses

Date:20th June,2017

The IQAC met the Admission Committee to understand the student enrollment in each course. It was observed that in most of the B.Com programmes there is an overwhelming demand and in Programs like Mathematics, Electronics, Computer Science (MECs) & BA (Economics, Psychology, Political Science) there is not much demand as some seats remained vacant/unfilled.

The IQAC team felt that some students were deprived of perusing the programme of their interest, hence it was suggested that some of the courses in which the seats were vacant/unfilled can be surrendered to the university and in lieu of these courses permission can be sought for the courses like B.Com (Generals) and BBA.

Hence, the College surrendered the courses {Mathematics, Economics, Commerce (MECs-1 Section) & BA (Economics, Psychology, Political Science)} and obtained compliance from the University for the courses {B.Com (Generals) and BBA}.
