

REPORT ON LECTURE ON “SCIENCE AND TECHNOLOGY:RURAL DEVELOPMENT”

16TH DECEMBER 2019

A Lecture programme on “Science and Technology: Rural Development” was organized by ISCA Hyderabad Chapter in association with Aurora’s Degree & PG College, Chikkadpally, Hyderabad on 16th December 2019. Prof. B. Satyanarayana, Convener, ISCA Hyderabad Chapter addressed the gathering with a brief overview of ISCA and about its functions and also on the role of science and technology in the present scenario.

Dr. P. Chandrasekhar Rao, , Dean of Post Graduate Studies, Prof. Jayashankar Telangana State Agricultural University was the speaker of the day. He has enlightened about importance of soil conservation, crop rotation, causes of soil pollution. He also focused on present day scenario of excess use of pesticides, insecticides in agriculture and their impact on health. He also discussed about the importance and use of bio-fertilizers, biofuel and afforestation.

The event was successful with the participation of students and faculty and had succeeded in creating awareness among young generation about environment and soil conservation.
